

CONFIDENTIAL

24 September 1959

MEMORANDUM FOR: Deputy Director of Security

SUBJECT: Revision of DCID 11/2 - Control of Dissemination
and Use of Intelligence and Intelligence Information

REFERENCE: Your memorandum, same subject, dated
10 September 1959, with draft attachment

1. OBI has reviewed the reference draft revision of DCID 11/2, with particular attention to those provisions relating to dissemination of intelligence documents to various Defense Department echelons engaged in production for National Intelligence Surveys.

2. A substantial percentage of NIS production by Department of Defense agencies is accomplished by such components as the Transportation Intelligence Agency, the Naval Hydrographic Office, and the Air Weather Service. These components require a broad range of intelligence information input to fulfill their intelligence producing responsibilities. In addition to other intelligence documents, they require and presently do receive such LIMITED documents as the OO-B series.

3. In the existing DCID 11/2, both INTELL COMPONENTS ONLY and LIMITED include "other (State and Defense) offices producing NIS elements" within the definition of those eligible to receive documents so stamped.

4. We note a) the definition of the Intelligence Community on page 1 of the draft DCID, and b) the wording after "Document" under INTELLCOM CONTROL on page 4. This Office requests clarification as to whether the proposed wording would permit the dissemination of INTELLCOM CONTROL documents to those NIS-producing components referred to in paragraph 2, above.

Deputy Assistant Director
Basic Intelligence
